

## Portable Restrooms.

English Sewage Disposal offers a variety of portable restrooms to meet your every need. We offer restrooms for both short-term as well as long-term rentals. We have restrooms for parties, graduations, and special events and offer four varieties to choose from:

- **Regular Portable Restrooms with hand sanitizer**
- **Portable Restrooms with Sinks**
- **ADA Portable Restrooms for handicapped accessibility**
- **Port-A-Jane Pink Restroom with sinks, hand sanitizer, and mirror**
- **Handwash Stations**

All come fully stocked and ready for use. For those renting on a long-term basis, the restrooms are serviced weekly, but can be cleaned more often at a nominal fee.

If your event is on the weekend, we will normally deliver your portable restroom on a Friday, and pick it up on the following Monday; there is no extra charge. Always free delivery Monday through Friday. Weekend & Holidays will incur a nominal fee.

## Portable Restrooms.

If you have a swimming pool or the neighborhood kids end up at your house consider renting a portable restroom to eliminate the neighborhood kids tracking through your house. We recommend placing the restroom outside the security fence to facilitate ease of placement and cleaning.

With the addition of the Port-A-Jane's you now can have men and ladies restrooms at your special occasion.

We can help you decide on the number of restrooms needed depending upon 2 factors; the number of hours and the amount of people attending or working.

## Mobile Restroom Questions

### Trailer Handicapped Accessible?

English Septic's Luxury Mobile Restroom Trailer is specifically designed for handicapped accessibility. It has an easy access ramp, as spacious interior, and is fully ADA Compliant.

### Is the Trailer Climate Controlled?

Both of our Restroom Trailers have heat and AC for the comfort of your guest.

### Where can the Mobile Restroom Trailer be placed?

It may be placed almost anywhere. Ideally the trailer will be placed on a level ground with access that is not obstructed with low hanging branches, low hanging power lines or fencing. Safety is a primary concern, so a location should be chosen where the guest can access the trailer easily. For long-term rental, placement is important for servicing and pick-up. A service truck must be able to get within 25 feet of the drain valves on the trailer.

### What Do I need to do?

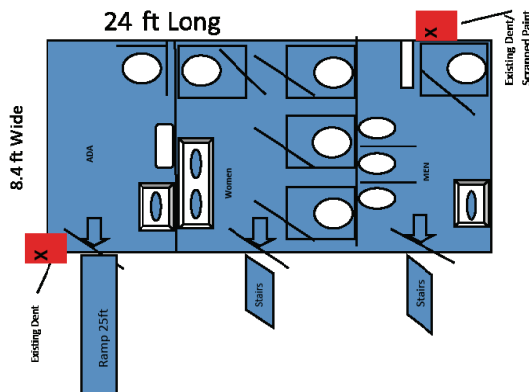

Our team will take care of the setup and we are always on call if you need us.
