

# Mobile Restroom Questions

## Trailer handicapped accessible?

English Septic's Mobile Restroom Trailer is specifically designed for handicap accessibility. It has an easy access ramp, a spacious interior, and is fully ADA Compliant.

## Is the Trailer climate controlled?

The restroom trailer has heat and air-conditioning for the comfort of your guests.

## Where can the Trailer be placed?

It may be placed almost anywhere. Ideally the trailer will be placed on a level ground with access that is not obstructed with low hanging branches, low hanging power lines or fencing. Safety is English Septic's primary concern, so a location should be chosen where the guests can see and get to the trailer easily but without taking from the events appearance. For long-term rentals, placement is important for servicing and pick-up. A service truck must be able to get within 25 feet of the drain valves on the trailer.

Request a quote for our  
Luxury Mobile Restroom Trailers:

## Our Mobile Restroom

Our MobileTrailer is designed with separate men's, ladies, & handicap unit.

The men's restroom includes 1 toilet stall, 3 urinal stalls, & a sink with running hot water.

The ladies restroom has 4 toilet stalls and 2 sinks with running hot water.

Our ADA restroom is fully equipped with stainless steel handrails, toilet, & sink with running hot water.

Our units come equipped with full A/C, Heat, & Lighting. The trailer requires 2 - 110V outlets & 40 PSI water supply.
